

Box elder bugs (exterior)

This is for the treatment of Box elder bugs outside a building.

Possible chemical(s) to be used and time to stay away from treated area

- Dragnet FT EC (2 hours)

Preparations before treatment

- Items need to be moved away from the building (if any)

General information

Box elder bugs come from box elder trees/manitoba maples. Getting rid of the trees is the best long term solution. You will see the bugs gather around your property typically wherever there is the most sunlight.
