

Mice

This is for the treatment of mice.

Possible chemical(s) to be used for treatment

- Resolv Soft Bait
- FirstStrike Soft Bait (to be used inside only)
- Contrac All-Weather Blox (to be used outside only)

Preparations before treatment

- Clear up as much clutter from the areas of concern for maximum visibility during inspection

General information

Mice are scavengers and are always trying to find new nesting spots. They can fit through a hole the size of a dime so keeping them out of the house can get tricky. They can reproduce at a phenomenal rate and getting as professional in as quick as possible is the best thing to do before they take over your house. They can also destroy your yard and cause damage by chewing and tunneling.
