

Pharaoh Ants (interior)

This is for the treatment of pharaoh ants inside a building.

Possible chemical(s) to be used and time to stay out

- Optigard ant gel bait (no time away required)

Preparations before treatment

- Furniture around the areas of concern if any need to be moved away from the walls

General information

Pharaoh ants are very popular inside of the house. They tend to show up when there is moisture, humidity or water somewhere. For example one of the most common problems is from gutters being improperly installed which causes all of the water flowing down to pool against the foundation of the house and thus attracts pharaoh ants.
